

FUNDS AT THE END OF THE FISCAL YEAR SHALL REVERT TO THE  
GENERAL FUNDS OF THE STATE.

5-303.

The Secretary shall submit annually, by February 1, a written report of his inspections and investigations to the Governor and [made] MAKE THE REPORT available to the General Assembly.

5-304.

In order to control, retard, or eradicate dangerously injurious [insects, other animal pests, or plant diseases,] PLANT PESTS, the Secretary may:

(1) Establish or rescind quarantines against the introduction into the State of any plant material known to be infested or infected or which reasonably may be believed to be infested or infected;

(2) Quarantine any area of the State known or reasonably believed to be infested or infected with dangerously injurious [insects, other animal pests, or plant diseases,] PLANT PESTS;

(3) Regulate the movement of infested or infected plant material or nonplant material likely to transfer the infestation or infection from a quarantined area to a noninfested or noninfected area;

(4) Remove any quarantine when the purpose for which it was established is achieved;

(5) Regulate or prohibit the planting of any crop in a quarantined area which the Secretary determines would prevent or limit the control, retardation, or eradication of any dangerously injurious [insect, other animal pest, or plant disease] PLANT PEST for which the quarantine is established; and

(6) Issue directives for any quarantined area as an integral part of the quarantine order relating to treatment of infested or infected crops and to treatment of soil, implements, storage facilities, or any other equipment or materials in the area that are likely to be a factor in transmitting any dangerously injurious [insect, other animal pests, or plant disease] PLANT PEST to [other] nonquarantined areas in the State.

5-305.

(a) The Secretary shall determine whether any [(1)] PLANT infestation, [(2)] [inflection] PLANT
